Contents of Volumes 90

Number 1, 7 May 1981

SINGH, S. N., CHAKRABARTY, K. C. and BARMAN, D., On Estimating the Risk of Conception from Observations on First Conceptive Delays	1
STENSETH, N. CHR., On Chitty's Theory for Fluctuating Populations: The Importance of Genetic Polymorphism in the Generation of Regular Density Cycles	9
WONG, A. Y. K., A Model of Excitation-Contraction Coupling of Mammalian Cardiac Muscle	37
DOUNCE, A. L., Origin of Life-Proposed Mechanisms for Primeval Polynucleotide and Peptide Chain Synthesis	63
ORLOVE, M. J., The Elevator Effect or a Lift in a Lift: How a Locus in Neutral Equilibrium can Provide a Free Ride for a Neutral Allele at Another Locus	81
MĂRGINEANU, I. and GHETIE, V., A Selective Model of Plasma Protein Catabolism	101
MARUYAMA, T. and IMAI, H. T., Evolutionary Rate of the Mammalian Karyotype	111
SHIPMAN, L. L., Theoretical Study of the Binding Site and Mode of Action for Photosystem II Herbicides	123
LETTERS TO THE EDITOR	
GRANT, B., The Safe-Neighborhood Hypothesis of Junk DNA	149
SVETINA, S., Protein Induction Process and Stochastic Nature of Cell Commitment to Proliferation and Differentiation	151
ERRATUM	159

Number 2, 21 May 1981

BUGRII, G. V. and KUKHTIN, V. V., The Effect of Electron Transport on the Kinetics of the Manganese-containing Superoxide Dismutase from <i>Bacillus stearothermophilus</i>	161
BELMONT, A. and NICOLINI, C., Polyelectrolyte Theory and Chromatin-DNA Quaternary Structure: Role of Ionic Strength and H1 Histone	169
CASE, T. J. and BENDER, E. A., Is Recombination Advantageous in Fluctuating and Spatially Heterogeneous Environments?	181
GLADYSHEV, G. P. and KHASANOV, M. M., Optical Activity and Evolution	191
KLEIN, B. Y., Can Tumorigenesis Result from <i>in vivo</i> "Transfection" of a Normal Cell with DNA Escaped from Disintegrating Nontransformed Cells?	199
LEIGH, E. G. JR., The Average Lifetime of a Population in a Varying Environment	213
ENDRENYI, L. and CHAN, F.-Y., Optimal Design of Experiments for the Estimation of Precise Hyperbolic Kinetic and Binding Parameters	241
MACCARTHY, J. E. and KOZAK, J. J., A Dynamic Model for <i>in vivo</i> Virus Replication	265
TROITSKY, N. A. and DROMASHKO, S. E., Conjugational Chromosome Transfer—Complete or Partial? Kinetics of Chromosome Transfer in Bacterial Conjugation	283
LETTER TO THE EDITOR	
PAINTER, P. R. and BLISS, R. D., Reconsideration of the Theory of Oscillatory Repression	293
ERRATUM	
KANANYAN, G. KH, RATNER, V. A. and TCHURAEV, R. N., Enlarged Model of Lambda Phage Ontogenesis	299

Number 3, 7 June 1981

SITARAMAM, V. and SARMA, M. K. J., Does Sucrose Space Exist? .	317
MATTESON, D. R., KRIEBEL, M. E. and LLADOS, F., A Statistical Model Indicates that Miniature End-plate Potentials and Unitary Evoked End-plate Potentials are Composed of Subunits .	337
SCULLEY, M. J., NICHOL, L. W. and WINZOR, D. J., Interactions between Micellar Ligand Systems and Acceptors: Forms of Binding Curves	365
RAO, G. S., TYAGI, R. S. and MISHRA, R. K., Calculation of the Minimum Energy Conformation of Biomolecules Using a Global Optimization Technique I. Methodology and Application to a Model Molecular Fragment (Normal Pentane)	377
RAO, G. S., TYAGI, R. S. and MISHRA, R. K., Calculation of the Minimum Energy Conformation of Biomolecules Using a Global Optimization Technique II. Conformation of <i>N</i> -Acetylglycine <i>N</i> -Methyl Amide, a Model Dipeptide Unit	391
IZUTSU, K. T., Theory and Measurement of the Buffer Value of Bicarbonate in Saliva	397
ANDERSON, J. L., Configurational Effect on the Reflection Coefficient for Rigid Solutes in Capillary Pores	405
COHEN, P., CONNETTA, B., DIX, D. and FLANNERY, J., The Incidence of Hematologic Tumours: A Cellular Model for the Age Dependence	427

LETTERS TO THE EDITOR

WEISS, G. H. and DARVEY, I. G., A Note on the Choice of Substrate Concentration in Enzyme Kinetic Experiments .	437
FOX, D. L., Presumed Carbaminoprotein Equilibria and Free Energy Exchanges in Reversible Carbon Dioxide Narcosis of Protooplasm	441

Number 4, 21 June 1981

NAGASAWA, M., An Application of the Segregation Model for Septation of <i>Escherichia coli</i>	445
ZAMIR, M., Three-Dimensional Aspects of Arterial Branching	457
ERIKSSON, A., LINDNER, P. and MÅRTENSSON, O., Molecular Properties and Odour. Effects of Substituents on Pyridine and Pyridine Odour	477
SIMON, I., Possible Mechanism for the Dynamic Stabilization of Protein Structure	487
ABBOTT, L. A. and LINDENMAYER, A., Models for Growth of Clones in Hexagonal Cell Arrangements: Applications in <i>Drosophila</i> Wing Disc Epithelia and Plant Epidermal Tissues	495
SAUNDERS, P. T. and HO, M. W., On the Increase in Complexity in Evolution. II. The Relativity of Complexity and the Principle of Minimum Increase	515
RAPP, P. E., MEES, A. I. and SPARROW, C. T., Frequency Encoded Biochemical Regulation is more Accurate than Amplitude Dependent Control	531
DRAKE, V. A., Target Density Estimation in Radar Biology	545

Index to Volume 90

- ABBOTT, L. A. and LINDENMAYER, A., Models for growth of clones in hexagonal cell arrangements: applications in *Drosophila* wing disc epithelia and plant epidermal tissues, 495
- ABERNETHY, J. D., The exponential increase in mortality rate with age attributed to wearing-out of biological components (erratum), 159
- Acceptors, interactions between micellar ligand systems and; forms of binding curves, 365
- Age dependence of the incidence of hematologic tumours, a cellular model for, 427
- Age, the exponential increase in mortality rate with, attributed to wearing-out of biological components (erratum), 159
- Allele, neutral, how a locus in neutral equilibrium can provide a free ride for, at another locus; the elevator effect or a lift in a lift, 81
- ANDERSON, J. L., Configurational effect on the reflection coefficient for rigid solutes in capillary pores, 405
- Arterial branching, three-dimensional aspects of, 457
- Bacillus stearothermophilus*, the effect of electron transport on the kinetics of the manganese-containing superoxide dismutase from, 161
- Bacterial conjugation, kinetics of chromosome transfer in; conjugational chromosome transfer—complete or partial?, 283
- Bacteriophage lambda ontogenesis, enlarged model of, 301
- BARMAN, D. (see SINGH, S. N.), 1
- BELMONT, A. and NICOLINI, C., Polyelectrolyte theory and chromatin-DNA quaternary structure: role of ionic strength and H1 histone, 169
- BENDER, E. A. (see CASE, T. J.), 181
- Bicarbonate in saliva, theory and measurement of the buffer value of, 397
- Binding curve forms; interactions between micellar ligand systems and acceptors, 365
- Binding and kinetic parameters, hyperbolic, precise, optimal design of experiments for the estimation of, 241
- Binding site and mode of action for photosystem II herbicides, theoretical study of, 123
- Biochemical regulation, frequency encoded, is more accurate than amplitude dependent control, 531
- BLISS, R. D. (see PAINTER, P. R.), 293
- Branching, arterial, three-dimensional aspects of, 457
- Buffer value of bicarbonate in saliva, theory and measurement of, 397
- BUGRII, G. V. and KUKHTIN, V. V., The effect of electron transport on the kinetics of the manganese-containing superoxide dismutase from *Bacillus stearothermophilus*, 161
- Capillary pores, configurational effect on the reflection coefficient for rigid solutes in, 405

- Carbaminoprotein equilibria and free energy exchanges in reversible carbon dioxide narcosis of protoplasm (letter), 441
- Carbon dioxide narcosis, reversible, of protoplasm, presumed carbaminoprotein equilibria and free energy exchanges in (letter), 441
- Cardiac muscle, mammalian, a model of excitation-contraction coupling of, 37
- CASE, T. J. and BENDER, E. A., Is recombination advantageous in fluctuating and spatially heterogeneous environments?, 181
- Catabolism of plasma protein, a selective model of, 101
- Cell commitment to proliferation and differentiation, protein induction process and stochastic nature of (letter), 151
- CHAKRABARTY, K. C. (see SINGH, S. N.), 1
- CHAN, F.-Y. (see ENDRENYI, L.), 241
- Chitty's theory for fluctuating populations: the importance of genetic polymorphism in the generation of regular density cycles, 9
- Chromatin-DNA quaternary structure and polyelectrolyte theory: role of ionic strength and H1 histone, 169
- Chromosome transfer kinetics in bacterial conjugation. Conjugational chromosome transfer—complete or partial?, 283
- Clone growth in hexagonal cell arrangements, models for; applications in *Drosophila* wing disc epithelia and plant epidermal tissues, 495
- COHEN, P., CONNETTA, B., DIX, D. and FLANNERY, J., The incidence of hematologic tumours: a cellular model for the age dependence, 427
- Complexity in evolution, on the increase of; the relativity of complexity and the principle of minimum increase, 515
- Conception, on estimating the risk of, from observations on first conceptive delays, 1
- Configurational effect on the reflection coefficient for rigid solutes in capillary pores, 405
- Conformation, minimum energy, of biomolecules, calculation of, using a global optimization technique; conformation of *N*-acetylglycine *N*-methyl amide, a model dipeptide unit, 391
- Conformation, minimum energy, of biomolecules, calculation of, using a global optimization technique; methodology and application to a model molecular fragment (normal pentane), 377
- Conjugational chromosome transfer—complete or partial? Kinetics of chromosome transfer in bacterial conjugation, 283
- CONNETTA, B. (see COHEN, P.), 427
- DARVEY, I. G. (see WEISS, G. H.), 437
- Density, target, estimation in radar biology, 545
- Differentiation and proliferation, protein induction process and stochastic nature of cell commitment to (letter), 151
- DIX, D. (see COHEN, P.), 427
- DNA escaped from disintegrating nontransformed cells, can tumorigenesis result from *in vivo* "transfection" of a normal cell with?, 199
- DNA, junk, the safe-neighborhood hypothesis for (letter), 149
- DNA-chromatin quaternary structure and polyelectrolyte theory: role of ionic strength and H1 histone, 169
- DOUNCE, A. L., Origin of life-proposed mechanisms for primeval polynucleotide and peptide chain synthesis, 63

- DRAKE, V. A., Target density estimation in radar biology, 545
- DROMASHKO, S. E. (see TROITSKY, N. A.), 283
- Drosophila* wing disc epithelia and plant epidermal tissues, applications in, of models for growth of clones in hexagonal cell arrangements, 495
- Electron transport, effect on the kinetics of the manganese-containing superoxide dismutase from *Bacillus stearothermophilus*, 161
- Elevator effect, or a lift in a lift: how a locus in neutral equilibrium can provide a free ride for a neutral allele at another locus, 81
- End-plate potentials, miniature and unitary evoked, a statistical model indicates that they are composed of subunits, 337
- ENDRENYI, L. and CHAN, F.-Y., Optimal design of experiments for the estimation of precise hyperbolic kinetic and binding parameters, 241
- Energy conformation, minimum, of biomolecules, calculation of, using a global optimization technique; conformation of *N*-acetylglycine *N*-methyl amide, a model dipeptide unit, 391
- Energy conformation, minimum, of biomolecules, calculation of, using a global optimization technique; methodology and application to a model molecular fragment (normal pentane), 377
- Environment, varying, the average lifetime of a population in, 213
- Environments, fluctuating and spatially heterogeneous, is recombination advantageous in?, 181
- Enzyme kinetic experiments, a note on the choice of substrate concentration in (letter), 437
- ERIKSSON, A., LINDNER, P. and MARTENSSON, O., Molecular properties and odour. Effects of substituents on pyridine and pyridine odour, 477
- Escherichia coli*, an application of the segregation model for septation of, 445
- Evolution, on the increase in complexity in; the relativity of complexity and the principle of minimum increase, 515
- Evolution and optical activity, 191
- Evolutionary rate of the mammalian karyotype, 111
- Excitation-contraction coupling of mammalian cardiac muscle, a model of, 37
- FLANNERY, J. (see COHEN, P.), 427
- FOX, D. L., Presumed carbaminoprotein equilibria and free energy exchanges in reversible carbon dioxide narcosis of protoplasm (letter), 441
- Frequency encoded biochemical regulation is more accurate than amplitude dependent control, 531
- Genetic polymorphism, the importance of, in the generation of regular density cycles; on Chitty's theory for fluctuating populations, 9
- GHEȚIE, V. (see MĂRGINEANU, I.), 101
- GLADYSHEV, G. P. and KHASANOV, M. M., Optical activity and evolution, 191
- GRANT, B., The safe-neighborhood hypothesis of junk DNA (letter), 149
- Growth of clones in hexagonal cell arrangements, models for; applications in *Drosophila* wing disc epithelia and plant epidermal tissues, 495
- H1 histone and ionic strength, their role in polyelectrolyte theory and chromatin-DNA quaternary structure, 169

- Hematologic tumours, the incidence of; a cellular model for the age dependence, 427
- Herbicides, photosystem II, theoretical study of the binding site and mode of action for, 123
- Hexagonal cell arrangements, models for growth of clones in; applications in *Drosophila* wing disc epithelia and plant epidermal tissues, 495
- HO, M. W. (see SAUNDERS, P. T.), 515
- Hyperbolic kinetic and binding parameters, precise, optimal design of experiments for the estimation of, 241
- IMAI, H. T. (see MARUYAMA, T.), 111
- Ionic strength and H1 histone, their role in polyelectrolyte theory and chromatin-DNA quaternary structure, 169
- IZUTSU, K. T., Theory and measurement of the buffer value of bicarbonate in saliva, 397
- Junk DNA, the safe-neighborhood hypothesis for (letter), 149
- KANANYAN, G. KH., RATNER, V. A. and TCHURAEV, R. N., Enlarged model of lambda phage ontogenesis (erratum—reprinted in full), 299
- Karyotype, mammalian, evolutionary rate of, 111
- KHASANOV, M. M. (see GLADYSHEV, G. P.), 191
- Kinetic and binding parameters, hyperbolic, precise, optimal design of experiments for the estimation of, 241
- Kinetics of chromosome transfer in bacterial conjugation. Conjugational chromosome transfer—complete or partial?, 283
- Kinetics of enzymes, a note on the choice of substrate concentrations in experiments (letter), 437
- Kinetics of the manganese-containing superoxide dismutase from *Bacillus stearothermophilus*, the effect of electron transport on, 161
- KLEIN, B. Y., Can tumorigenesis result from *in vivo* "transfection" of a normal cell with DNA escaped from disintegrating nontransformed cells?, 199
- KOZAK, J. J. (see MACCARTHY, J. E.), 265
- KRIEBEL, M. E. (see MATTESON, D. R.), 337
- KUKHTIN, V. V. (see BUGRII, G. V.), 161
- Lambda phage ontogenesis, enlarged model of, 301
